

TE Connectivity

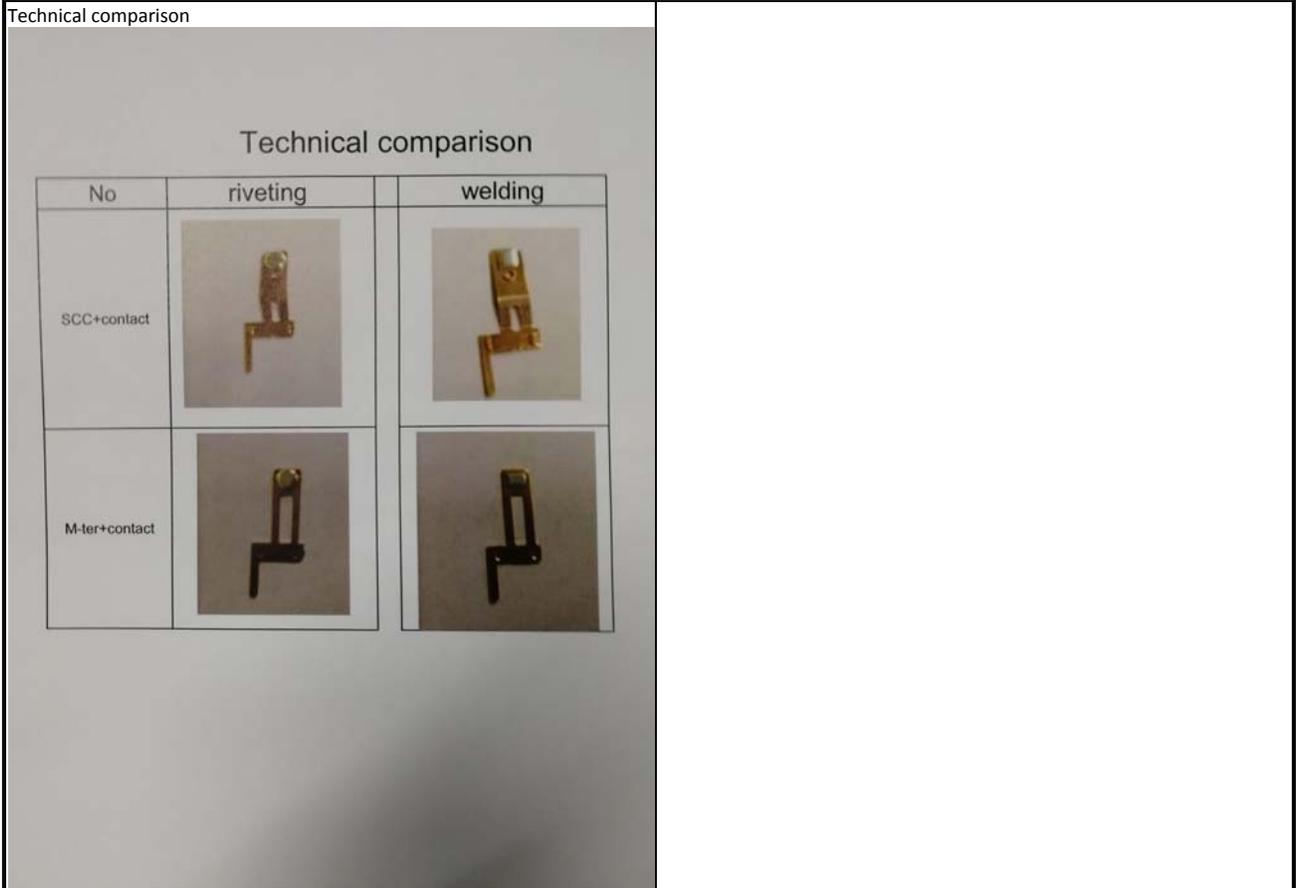

Product Change Notification: E-19-001303

PCN Date: 18-FEB-19

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:
OJ LMH2 series welding contact

Description of Changes
we will plan to change riveting contact to welding contact for LMH2 series

Other attachments:
[Technical comparison](#)

Reason for Changes:
Product Improvement. As you know innovation is one of TE value and TE always bring the technology and manufacturing advantages to improve product performance and our customer experience, after the successful implementation in the past several years, TE has decided to extend OJ relay LMH2 type for all customers to welding contact (please find the attached comparison photo). Compare to the current riveting contact, the new welding contact has the better resistance between contact and spring. TE already updated all the agency approvals and it's no impact to the relay specs. functions and mounting after this change

Estimated Dates:

Last Order Date (Obsolete Parts Only):	First Date To Ship (Changed Parts Only):
	08-MAR-2019
Last Ship Date (Obsolete Parts Only):	Last Date for Mixed Shipments: (Changed Parts Only):
	19-JUL-2019
